Bug Club 2016 - an online interactive reading programme that complements and supports the printed readers that your children are using at school with their teacher. With an online subscription of $3 your child will be given their own Bug Club page and they will then be able to access these same readers, as well as a range of other readers, at school and at home. Each teacher is able to allocate readers at the right level and monitor the reading progress of the children in their class. There are interactive activities, games, audio and reading prompts to make the whole learning to read process fun and rewarding.

- The Chelsea PTA have again agreed to pay the school licence of $575 which means you only pay the $3 per child subscription (see form below) which gives each child their own Bug Club page with personal logon and password.

- Bug Club offers a comprehensive series of Fiction, Non Fiction and Comics across the Reading Colours Levels from Pink to Sapphire ie Reading Levels 1 – 30 (5yrs – 12+yrs)

- No longer will Book Bags or readers be forgotten! Or books lost or damaged. This will be a bonus for parents and teachers as well as the children.

- Bug Club is available on iPads and Android tablets, which makes Bug Club even more accessible for all children. (No app – just go to this link http://www.pearsonplaces.com.au/ - then login with your username and password)

- For more information go to this link - Parent and Student guide http://www.pearsonplaces.com.au/portals/0/alp/Active%20Learn%20Help_Student.pdf

Please fill in and cut off and return to the school office with $3 for your subscription to Bug Club online reading programme.
