

Intrinsically Motivating our Youth

Everyone likes to have a choice, an 80yr old grandparent wants choice, a 2 yr old toddler wants choice, an 11yr old child playing sport is the same.

Our wellbeing includes many areas:

Physical

Psychological

Social

Emotional

Set them up for success 😊

Enabling the person will enable to athlete.

We are people connecting with people.

Enable them to enable their culture.

Broad is good. The more experiences the better.

“I love watching you play”

– try saying it and watch happens

Thank you for investing in the wellbeing of our future
